

PRESS RELEASE

For Immediate Release

Wintriss Engineering receives a multi-system order for the Web Ranger Surface Inspection System order that is valued at 1 million U.S. Dollars

SAN DIEGO, CA - Jan. 15, 2007

Wintriss Engineering has received a multi-system order for the Web Ranger Surface Inspection System for a leading Korean manufacturer of display film to automate the inspection of their production lines. The sale is valued at 1M USD. The display film to be inspected includes OPF, PET-SI, IEF and LDF. Casa Tech, distributor for Wintriss in Korea and Japan, will provide system integration services and install the systems during March-April, 2008. Wintriss Engineering manufactures the Web Ranger surface inspection system with over 120 installations in Asia, North America and Europe and is the industry leader in the inspection of high quality optical films. For more information contact Sujoy Guha, Vice President, at (sales@weco.com).
