

News Release

Wintriss Engineering forms Asian subsidiary to support rapidly growing customer base for Web Ranger surface inspection systems

SAN DIEGO, CA-July 7, 2008

In an ongoing effort to expand our commitment to the continuous processing industry, Wintriss Engineering is pleased to announce the creation of Wintriss Inspection Solutions, Limited, a Hong Kong corporation and subsidiary of Wintriss Engineering Corporation. The new company combines the engineering, manufacturing and sales capabilities of Wintriss Engineering Corporation with the system integration and sales expertise of our long time partner in the Asian market, Linpo Optoelectronics Corporation. This new business structure will provide added strength and capabilities to better serve our customers worldwide. With an international base of over 230 installations of the *Web Ranger*TM product line in plastic film & sheet, nonwovens, metal, paper and electrical materials, Wintriss Inspection Solutions, Ltd, is a proven supplier of reliable systems and is the industry leader in the inspection of optical films.

Wintriss Inspection Solutions, Ltd. has its Asian sales office in Taipei, Taiwan, with complete engineering and support capabilities available in Taiwan and PROC to serve our Asian customers. The San Diego, California, office of Wintriss Engineering will continue to provide service and support to Wintriss Inspection Solutions customers in North America and Europe.

We look forward to meeting all your surface inspection needs with our world-class team at Wintriss Inspection Solutions!

Andrew Ash
President
